1. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested that one skilled in the art at the time the invention was made would have prepared a perform for RTM molding process by applying a patterned discontinuous homogeneous liquid layer of a tackifier resin to at least one side of a layer of reinforcing fibers wherein a predetermined quantity of the tackifier was forced into a number of the fibers. The prior art of record failed to teach the use of a homogeneous liquid resin for the purpose of application in a discontinuous pattern in the manufacture of a preform. It should be noted that claim 6 has been amended to remove that the tackifier was a thermoplastic resin, as thermoplastic resins do not cure. Additionally, the product claims have been canceled, as it cannot be discerned how the use of the homogeneous liquid resin would have produced a materially different end product from that of Lopez et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
